ROADMAP

- We aim to Launch MOONLIGHT MEME coin on Solana blockchain. Solana has the fastest transaction speed and can process large volume of transactions at once, it makes it perfect for the memecoin ecosystem.

Our goal is to create a community through our beauty cream as its easy to penetrate further with a physical product. It will help us cover the merchandising department.

The more we expand the MOONLIGHT community it will empower the Solana blockchain and endorse the benefits and advantages by this particular blockchain platforms. Influencer marketing can also be opted for. And combining technology as well as lifestyle influencers would highlight the need for a decentralised system even more. Increasing the awareness by means of all social media and above the line promotional platforms.

*** Conclusion**

MOONLIGHT is a unique meme coin that combines the world of skincare and blockchain technology. With its strong community focus and potential for utility, MOONLIGHT aims to become a leading meme coin in the Solana ecosystem. Join us on this exciting journey and let's illuminate the world of skincare together!
